

### **MSVR Bulletin - BSB Official Fuel Supply**

Anglo American Oil Company has due to an increasing portfolio of four wheel championships decided to suspend all official activities within two wheel racing. This includes the official fuel supply to the British Superbike Championship.

Anders Hildebrand commented: "With a personal background in four wheel motor racing the Sunoco race fuel business has been built on passion and 100% commitment. Although a personal love for motorcycles made us jump with both feet first into the highest level of motorcycle racing in Europe in the shape as the Official Fuel to BSB, we as a company struggled to keep up with the involvement needed and we have therefore decided together with the BSB promoters to take one step back and re-evaluate further involvement in motorcycling. When the time is right we will look into coming back stronger than ever."

BSB Series Director Stuart Higgs concluded: "Sunoco race fuels are the established fuel of AMA Pro Racing in the USA and the launch into two wheels into Europe was ambitious with great potential. Quite simply though, the rapidly increasing responsibilities in the proven field of car racing meant that the two wheel project could not get the attention it would need to fully develop so we mutually agreed to stop."

The appointment of a new supplier will be announced on February 3<sup>rd</sup> 2012.
