## 8. SCRUTINEERING

Please ensure that you have completed, in its entirety, the Motorsport UK self-declaration scrutineering form.

At least 25% of vehicles will be physically inspected by a Motorsport UK scrutineer. These cars will be pre-selected by the scrutineers to ensure that every car/competitor is seen at least once, every four race events that it competes in. Please ensure that the car and all driver equipment is ready to be checked at the time shown on the timetable, this will be done in situ.

Visual scrutineering will be conducted on all competing vehicles just before noise testing at the entrance of the assembly area, and in the paddock road while waiting to avoid causing congestion. Scrutineers will have the power to perform random spot-checks on both cars and drivers' equipment throughout the event.

Any non-MSVR permitted/guest championships/Series will be asked if they would be happy to take part in the trail. If they choose not to take part, 100% scrutineering will be conducted.

If you are unsure of your vehicle's ability to meet the required safety criteria set out in the Motorsport UK general regulations, then please find a Scrutineer and ask them to check this for you. Allow plenty of time before your first session on track

## 9. ELIGIBILITY

Eligibility may be checked by a member of the Motorsport UK Technical Commission listed in the 2022 Motorsport UK Yearbook at Appendix 5d. These Technical Commissioners will be considered as Judges of Fact within the Regulations. The Championship/Series licensed Eligibility Scrutineers are also considered Judges of Fact and empowered to undertake any measurements or examinations of vehicles.

## 10. DRIVERS RACING FOR THE FIRST TIME AT SNETTERTON

Competitors must read an instruction sheet that can be sent out upon request.

## 11. DRIVERS BRIEFINGS

All competitors are required to attend a briefing before they go on track, please see the event timetable for location and times.

The briefing may be supplemented by written notes which will include any specific information for your series/championship and will be treated as an official event document.

The organisers reserve the right to call extra briefings as appropriate. Attendance/completion of the drivers briefing is mandatory.

## 12. ENGINE / NOISE POLLUTION

Engines must not be run before 0830 hours OR after 1845 hours.

Noise testing will take place at the entrance to the assembly area for all vehicles. No vehicle should go on track without first having passed a noise test.

## 13. PIT LANE

The mandatory speed limit in the Pit Lane for **Enduro KA** will be 50km/h, all other grids will be 60km/h.

The Penalty Box is in the Pit Lane adjacent to Race Control.

## 14. PRACTICE/QUALIFYING

All cars will start practice/qualifying from the Pit Lane.

## 15. RACE START PROCEDURE

All competitors will proceed to the Assembly Area. On instruction from officials, all cars will proceed directly to the grid.

#### Rolling Starts:

**Please note that where possible the countdown boards, including the 5 second Board used for standing starts, will be displayed on the Start Line Gantry Messaging Board – see pictures below:**

Should technical difficulties prevent the use of the Gantry Messaging Board, the Starter will display boards from the Pit Wall.

For avoidance of doubt on standing starts, once all cars have returned to the grid at the end of the Green Flag lap, the 5 second board will be switched on & then switched off. The red starting lights to the left of the Gantry Messaging Board will then be switched on and **the race starts when the red lights are switched off.**

#### 18. SAFETY CAR

The Clerk of the Course has the option to deploy a Safety Car in all qualifying and races. If required immediately after a race start, the Safety Car will be deployed from the exit of Turn 12. At all other times the Safety Car will join the circuit from the Pit Lane exit. It will always leave the circuit by entering the Pit Lane.

#### 19. TRACK LIMITS

At this event infringements of 'track limits' as defined by Motorsport UK Regulation Q14.4.2 will be detected by an automatic system that will identify the offending car and produce a photograph of the infringement.

This photographic evidence will be considered as a fact and may be used by the Clerk of the Course for judicial procedures in accordance with Motorsport UK Regulations.

The above mechanism for such infringements does not preclude from marshals, officials and Judges of Fact from reporting infringements.

#### 20. LIVE SNATCH

Cars may be removed from the gravel traps under local Yellow Flags/Lights.

#### 21. END OF PRACTICE AND RACE PROCEDURE
