

PIRELLI BSB range 2023

Quattro Group British Supersport & Pirelli National Junior Superstock

Silverstone Rd 1 & Thruxton Rd 7

Please note that use of the following rear slick will be mandatory for the above events

190/60 R17 Diablo Superbike SCD (spec to be confirmed)

Silverstone Official Test – only the above option will be carried by the Pirelli service for use at the test.

Note – Pirelli's recommended minimum 'in service' pressure (1.65 bar) must be observed. To clarify, this is the minimum tyre pressure accepted to pass the grid test procedure and is not a suggested optimum on track pressure.

If further information is required please contact Jason
