

PM ANNOUNCEMENT AND IMPLICATIONS FOR ROUND 1

As you will all have seen the Prime Minister has delayed the move to Step 4 (easing of all restrictions). The basic implications for Round 1 at Oulton Park are that we continue in the same mode that the last two tests were organised. In summary this is:

- Event limited to 4,000 spectators per day
- Social distancing remains in place
- Wearing of PPE in operational areas
- Principle of the "rule of 6" maintained
- Paddock closed to all but BSB issued credential holders

Where we need explicit co-operation is for all teams to carefully consider their staff and associates attendance. Please limit to essential/key attendees only in order for the overall site headcount to be carefully managed.

For those classes NOT RACING at Oulton Park please note that your season credentials are not valid for admission at Round 1, and the pass barcodes are disabled and admission will not be possible as the pass will be rejected on scanning.

For the support races at WorldSBK Donington similar principles will apply. BSB credentials will have no validity. One event WSBK/Donington passes will provide admission. Details will follow.

The situation for Knockhill is under different jurisdiction and we await Scottish Government, local council and venue advice expected on 17th June.

The PM's announcement eluded to restrictions being lifted on 19th July which would render the remainder of events starting from Brands Hatch to run something akin to normal.

Thank you for your co-operation.

Stuart Higgs
